

TRUSS TAPE

CODE NASUV80500P

The article has the following characteristics:

- New UV-resistant material
- Width 80 mm
- Higher tensile strength
- Improved structure, tearproof also if partly cut
- Transparent, so also fruits underneath the ribbon are visible during harvest
- More respect for the strawberry plant since the ribbon is larger and softer
- Reticular structure prevents partially botrytis (lat. botrytis) in strawberries (water and treatments do not remain on the surface but flow away through the mesh)
- Easily repairable through simple knot
- Supplied in rolls of 500 m

We are at your disposal for any further information.
